--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 11 April 2007 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:
- a) The period for reply expires 4 months from the mailing date of the final rejection.
- b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.
- Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

3. The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
- (a) They raise new issues that would require further consideration and/or search (see NOTE below);
- (b) They raise the issue of new matter (see NOTE below);
- (c) They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
- (d) They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____. (See 37 CFR 1.116 and 41.33(a)).

4. The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).

5. Applicant's reply has overcome the following rejection(s): _____.

6. Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).

7. For purposes of appeal, the proposed amendment(s): a) will not be entered, or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.

The status of the claim(s) is (or will be) as follows:

Claim(s) allowed: _____.

Claim(s) objected to: _____.

Claim(s) rejected: _____.

Claim(s) withdrawn from consideration: _____.

AFFIDAVIT OR OTHER EVIDENCE

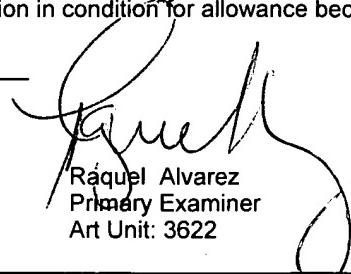

8. The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).

9. The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing of good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).

10. The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

REQUEST FOR RECONSIDERATION/OTHER

11. The request for reconsideration has been considered but does NOT place the application in condition for allowance because:
See Continuation Sheet.
12. Note the attached Information Disclosure Statement(s). (PTO/SB/08) Paper No(s). _____

Raquel Alvarez
Primary Examiner
Art Unit: 3622

Continuation of 11. does NOT place the application in condition for allowance because: Applicant argues that Emens doesn't teach displaying the requested content and the targeted ad together. The Examiner disagrees with Applicant because Emens teaches the search result items and associated product icons are displayed to the user (col. 7, lines 11-17). The product icons represent the targeted ads based on the content.

Applicant further states that in Emens, the user must access the link in order to see the ad and that in the claimed invention "the ad is displayed" without having to access a link. The Examiner wants to point out that first of all, the claims do not exclude accessing a link to receive the ad, this must be claimed in order for the examiner to consider this portion of Applicant's arguments. The icon is representative of an ad and since Applicant hasn't claimed a particular state or in what particular format the ads are display, the rejection is sustained.

With respect the content being accessed in response to the submission of a URL by the user. The Examiner wants to point out that in Herz the user inputs the URL in order to receive content from a particular website and in Emens the user inputs keywords in order to receive the content. Modifying Emens to incorporate Herz teachings will produce a system wherein the user uses the URL instead of keywords to receive the content. This change is obvious and well known for users to use company's URL in order to obtain direct access to the information needed and therefore contrary to Applicant's arguments, the references do not teach away from each other.

In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See In re Keller, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); In re Merck & Co., 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

Applicant argues that the references do no teach that the advertisements are determined free of information about the user. The Examiner disagrees with Applicant because Emens clearly teaches on col. 4, lines 54-58, "The method of the instant invention follows an approach uniquely different from the e-commerce method of user profiling. Instead of using user profiles to target advertisement, the resultant search result items from a search engine performing an Internet search are utilized. These search result items are associated with similar or related advertisements." As can be seen by above the ads are based only on the information/content that the user is looking for.

With respect to the official notice taken by the Examiner that monitoring the amount of click through of an ad and classifying information based on past consumption of prior products or coupons redemption by the consumer are well known. Applicant asserts that Emens or Herz do not teach such functions ,but this is not relevant to the use of Official Notice. While applicant may challenge the examiner's use of Official Notice, applicant needs to provide a proper challenge that would at least cast reasonable doubt on the fact taken notice of. See MPEP 2144.03 where In re Boon is mentioned.
